

## Department of Languages and Literature

### MASTER OF ARTS IN APPLIED LINGUISTICS (as replacement / revision of the existing MAELT)

#### Description of the Program

The program helps contribute to the students' professional growth through the knowledge acquired from applied linguistics, which knowledge is applied to the teaching of and doing research on the English language.

#### Objective of the Program

1. To achieve competence in linguistic principles and analysis; and derive insights from applied linguistics to deepen the students' understanding of the nature of language and learning:
2. To utilize these competence and insights:
  - 2.1 to improve the students' performance in communicative skills;
  - 2.2 to sharpen the students' discernment of which linguistic terms, instructional materials, and methodologies (approaches, techniques and resources) best fit the learning environment;
  - 2.3 to equip the students with theoretical frameworks to do researches.

#### Requirements for the Admission into the Program

A.B./B.S. Major in English or at least 2 years of teaching English on the secondary or tertiary level and must pass all CHED requirements.
